SAFe-certified Scrum Master and Associate Project Manager with a software engineering background. Experienced in coordinating technology initiatives, facilitating agile ceremonies, and delivering clear stakeholder communication in remote and client-facing environments.

EXPERIENCE

LLM Trainer

FEB 2026 - PRESENT

Revelo · Remote · Freelance

AI training and evaluation projects focused on full-stack app generation and single-page front-end development.

- Reworked and polished AI-generated applications in HTML, CSS, and JavaScript into responsive, production-ready results.
- Validated build, runtime, responsiveness, and features, including Docker-based verification.

LLM Trainer

SEP 2025 - JAN 2026

Turing · Remote · Freelance · Client: Apple

Multilingual AI training: designed multi-turn workflows and evaluation frameworks with attention to accuracy, quality, and consistency.

Associate Project Manager / Scrum Master

JUN 2024 - SEP 2025

Instituto Federal de Telecomunicaciones (IFT) · Mexico City (Remote)

Structured project delivery using predictive and agile practices for a public-sector technology initiative.

- Defined the agile operating structure: ceremonies, workflows, and delivery practices aligned with the client.
- Configured Jira workflows for sprints, incidents, and dependencies; prepared recurring reports for leadership and client stakeholders.

Software Engineer (Full-Stack)

MAY 2022 - APR 2024

Luxoft · Guadalajara (Remote) · Client: Expedia Group

Built UI components for the flights page with React and TypeScript, tested with Jest and Cypress, in a SAFe Agile environment.

Web Developer

JUL 2018 - MAY 2022

Nerdy Trust · Mexico City · Clients: BAMF, enDrive, Turbodega, Ubukén, TED, NAFIN

Designed and delivered landing pages and websites for multiple clients with React, Vue.js, and Django, managing changes and iterative improvements.

Intern Developer

FEB - AUG 2017

CODES, Consultoría y Desarrollo de Sistemas · Mexico City

Supported front-end and back-end development for the YAAX app.

SKILLS

Agile & management: Scrum · SAFe · Sprint Planning · Stakeholder Reporting · Jira · Confluence · MS Project · SharePoint

Development: React · TypeScript · JavaScript · HTML / CSS · Vue.js · React Native · Django / Python · GraphQL
